

DIARY NOTES

25X1A

DD/S

15 November 1961

25X1A9a

1. I talked with [REDACTED] concerning a radio in Mr. McCone's personal car and authorized the installation of equipment which would duplicate that which was in his official car.

25X1A9a

2. I confirmed with General Cabell that [REDACTED] was handling the compilation of the interdepartmental committees insofar as USIB was concerned. We should check with him, however, to make sure that we are all on the same wave length. This simplifies our problem greatly since we will deal with committees other than USIB.

3. I met with [REDACTED] and Larry Houston to discuss and approve of the assignment of [REDACTED] to DPD. We also discussed a downtown office for him which [REDACTED] who, incidentally, is resigning, believes to be necessary. I am not completely sold on the downtown office nor on the necessity or even the desirability of having Marvin hang out a shingle; in fact, this would seem to be not good security. However, I told them to go ahead and staff out this matter with Central Cover and the Office of Security.

25X1A

4. [REDACTED] Larry Houston, and I also discussed our Employee Conduct Manual which is classified "CIA Internal Use Only." They were fearful that the Moss Committee would insist that this be unclassified. I told them that I would prefer to send the Manual with the "CIA Internal Use Only" classification on it, and if the Moss Committee demanded that it be changed, my feelings would not be hurt.
